

AKS AI INSPECTION

AI MACHINE VISION SOFTWARE

- Comprehensive AI solution for seamless product inspection
- All-in-one package allows labeling, training, and inspection in one license
- User-friendly interface help reduce development time and resources

LABELING

Annotation tools assist in precise image region declaration

Auto-Labeling for faster labeling

Support multi-class labeling

TRAINING

3 Training modes are available:

- **Classification,**
- **Object Detection,**
- **Segmentation**

Small dataset required for training (10 images+)

INSPECT

Built-in inspection mode

Fast inspection allows supporting high-speed production

Data Export is available

Flexible model selection

System Requirement

CPU:	Intel Core i3 or above
Memory:	8GB
GPU:	RTX 3060 (minimum)
Disk Space:	20 GB
OS:	Windows 10/11
